

## Newborn Hearing Screening Saxony-Anhalt

Neugeborenen-Hörscreening Sachsen-Anhalt, Trackingstelle  
Fehlbildungsmonitoring Sachsen-Anhalt  
Leipziger Straße 44, Haus 39  
39120 Magdeburg

other languages

Dear parents,

all children born in Germany are offered a hearing test in the first days of their lives. This early detection examination for congenital hearing disorders is usually carried out in the maternity clinic, unless the parents reject it.

The Newborn Hearing Screening Tracking Center tracks the hearing screening results to ensure that every newborn receives this hearing test.

You receive this letter because, according to our information, your child could not receive a hearing test immediately after birth or the hearing test showed a conspicuous result.

We would like to ask you to have your child's hearing checked. **A hearing test is usually performed by outpatient ENT doctors after discharge from the maternity clinic.**

We kindly ask you to **send us the results of the examination**. Please use one of the following contact options to do so:

Neugeborenen-Hörscreening Sachsen-Anhalt, Trackingstelle, Fehlbildungsmonitoring Sachsen-Anhalt, Leipziger Straße 44, Haus 39, 39120 Magdeburg		
Tel.: +49 391-67-14174	Fax: +49 391-67-14176	E-mail: <a href="mailto:monz@med.ovgu.de">monz@med.ovgu.de</a>
Website: <a href="http://www.angeborene-fehlbildungen.com">www.angeborene-fehlbildungen.com</a>		<a href="mailto:nhs@med.ovgu.de">nhs@med.ovgu.de</a>

On the back of this letter you will find a diagnosis documentation sheet which you can fill out yourself and return to us. Your paediatrician may also be able to help you if you have the form filled out and presented during the next check-up.

Healthy hearing is one of the basic preconditions for proper language development.

Various **out-patient ENT doctors carry out a hearing test or checkup for newborns**. Talk to your pediatrician about which ENT specialist in your area can perform this examination. You are welcome to contact us for more information.

For children with an **increased risk of congenital hearing disorders** (e.g. familial hearing impairment or severely ill newborns), it may be advisable to have the hearing test or check-up examination performed by a specialist doctor.

Therefore, you can make an appointment in the respective departments for pedaudiology/phoniatrics of the following ENT clinics in Saxony-Anhalt:

AMEOS Klinikum Halberstadt	Tel.: +49 3941 64-2297	
Universitätsklinikum Halle	Tel.: +49 345 557-4056	E-mail: <a href="mailto:hno_amb@uk-halle.de">hno_amb@uk-halle.de</a>
Universitätsklinikum Magdeburg	Tel.: +49 391 67-13848	E-mail: <a href="mailto:ngh-screening@med.ovgu.de">ngh-screening@med.ovgu.de</a>

We wish you and your child all the best and will be happy to answer any questions you may have.

Yours sincerely

PD Dr. med. A. Reißmann  
Fehlbildungsmonitoring Sachsen-Anhalt
